Council approves reinstating the Public Safety Committee with the Terms of Reference being revisited and presented to Council for approval.

**Unanimously Carried**

**b) Meeting Attendance**

Mayor Bell noted there have been some issues with councillors' attendance at meetings; some are legitimate, while others are not. Staff take considerable amount of time to prepare for meetings. Mayor Bell reminded everyone that the community voted for councillors and they should be attending meetings to make decisions.

Mayor Bell requested that the Council Indemnity By-law be revisited and amended so that when a councillor is absent for an unreasonable reason, they would not receive indemnity. He noted that currently, councillors receive a monthly indemnity, but a meeting allowance will have to be determined so any missed meetings for an unreasonable reason is deducted from the monthly indemnity.

**Motion #20-40**

Moved by: Councillor Sheppard

Seconded by: Deputy Mayor Brewster

Council instructs Administration to prepare options for Council to review relating to compensation and attendance at meetings.

#### a) **RFD – Excess Funding**

Mary Omole, Finance Officer/Community Funding (Wellness), presented a Request for Decision for the allocation of excess 2019/2020 Community Wellness Funding. Ms. Omole explained that the Qajuqturvik Food Centre no longer requires funding from the 2019/2020 Community Wellness Fund in the amount of \$32,972.70, as they have received funding from other sources. Staff presented a recommendation to allocate \$11,500 to Joamie School Outdoor Cross-Country Skiing and Snow Sailing Program and \$5,000 to Pairivik Daycare Country Food Community Feast.

It was clarified that the Community Wellness Fund is block funding received from the Government of Nunavut.

A question was raised regarding the process for selecting the two recipients. Ms. Omole explained that the two organizations originally requested funding. She further explained that the remaining funds will also be allocated, and staff will be contacting organizations who did not originally receive funds, as well as organizations that originally received funds, to determine if they require additional funding.

Amy Elgersma, Chief Administrative Officer, explained that block funding will be received for the upcoming fiscal year. There will be a Call for Proposals, which will be evaluated and presented to Council for input and approval.

#### **Motion #20-47**

Moved by: Councillor Lucassie

Seconded by: Councillor Akumalik

Council accepts the recommendation for allocating Community Wellness Funds as presented.

**a) Projects Update**

Councillor Akumalik noted that he has received positive comments from residents that the roads are good.

Matthew Hamp, Director of Engineering and Public Works, commented that further to Council's comments at previous meetings, the reporting table for projects has been reorganized for easier understanding and explained the column headings.

Mayor Redfern thanked Mr. Hamp and staff for developing the project reporting table, which is very useful for both Council, new staff and residents. She acknowledged the amount of work involved to develop it.

The following suggestions to the table were requested:

- A key be provided for the various symbols that are used in the table.
- Include the project start date and any additional funding that was approved for the project.
- Any projects that have phases, a new line to be added under the original project number as a, b, c, etc. to depict each of the phases of the projects.
- Lands projects be included in future reports.
- Like projects, such as the landfill and solid waste, be listed one after the other.

Mr. Hamp highlighted the major projects:

- Wastewater Treatment Plant Upgrades – the primary treatment (filters) has been completed. The secondary treatment will be completed in August and has a long commissioning phase.
- Solid Waste Facility – the design phase is 30 percent complete and should be completed by the end of the year so that the tender can be issued in early 2020.

Mr. Hamp provided the following updates on projects based on questions posed by Councillors:

- Abe Okpik Hall Improvements (13) - received unexpected funding for the next phase, which was spent and has not been reflected in the budget amount.
- Apex Pumping (38) - A letter has been received from the Minister of Community and Government Services agreeing that the water supply is in a state of

emergency. The letter enabled staff to submit documents to the Water Board, and once approval has been received, pumps can be placed in the river to start pumping.

- With the drought conditions for the past several months, the water flow in the Apex River can no longer provide sufficient water. Therefore, a request was submitted to Community and Government Services and the Water Board to use an alternate source, being the Unnamed Lake. This was suggested by a number of elders, hunters and trappers in the community. Similar to last year, temporary infrastructure will be installed to pump water from the Unnamed Lake into the Apex River. The water will flow approximately two kilometres downstream and will then be pumped from the original planned pumping location to fill Lake Geraldine. It is hoped that pumping will start on August 19<sup>th</sup> for approximately eight weeks. Due to the time of year that pumping will start, a considerable amount will be pumped in the eight weeks, being approximately 700,000 cubic metres.
- Pricing is being obtained for the temporary infrastructure for the Unnamed Lake, and it is anticipated that the approved \$2.25 million will not be sufficient. The estimates will be received within the next few days, at which time approval will be requested to purchase the infrastructure.
- Mayor Redfern advised that the Federal Government has signed a multi-year agreement with the Government of Nunavut for \$566 million for infrastructure, which includes wastewater and water projects. The Government of Nunavut held consultations in early spring and all water and essential projects are being prioritized. Staff have been requested to do an analysis and assessment for a permanent water solution to submit to the Government of Nunavut before funds have been allocated. It is hoped that 75 percent funding will be received. Council will have to lobby the Territorial Government to obtain a portion of the remaining 25 percent.
- Long-term Water Supply Project (32) – the long-term water supply started a number of years ago and it was agreed to pump water from the Apex River, which formed part of the city's Water License Renewal Application in 2015. As a result of a consultation process, it was recommended that fish and fish habitat studies be carried out on Lake Geraldine, Apex River and the stream that empties from Lake Geraldine and runs through the city. The study showed that there are fish in the Apex River, and the Department of Fisheries and Oceans recommended not to use the Apex River as a long-term water supply.
- In 2017, the Sylvia Grinnell was considered for long-term water supply as data has been collected for 30 years. Options considered were to pipe water from Sylvia Grinnell to Lake Geraldine, expanding Lake Geraldine and the possibility of locating a new reservoir to expand the overall capacity. Consultations with the Hunting and Trappers Association were carried out and they were not in favour of using Sylvia Grinnell and suggested using the Unnamed Lake. Surveys and water and fish testing were carried out on the Unnamed Lake this summer and determined the water was good for consumption. A flow model will be developed to determine if the Unnamed Lake recharges every year, and if 500,000 cubic

metres of water was pumped out, will it recharge next year. This will determine if the Unnamed Lake is a viable long-term source.

- IT Infrastructure Project (20) – work has started on the project for the renewal of all the IT Infrastructure. All projects fall under Engineering and Public Works, with input from all departments.
- Water supply pipes - 2019 Apex Pumping (38) includes the budget and associated work and supplies required for the water supply. Water system upgrades as it relates to aging infrastructure piping is included in projects 43 – 48. The long-term water supply and increasing water capacity is included under long-term water supply (32).
- Bollard replacement (37) - is the steel red painted bollards around the access vaults and a number require replacement.
- Solid Waste Facility (2) - that a tender will be called in January 2020 with an anticipated completion date of 2022.
- Reverse Osmosis (39) – expenditures for design work was carried out last year in anticipation of carrying out the work this year.

## THE CORPORATION OF THE CITY OF IQALUIT, NU

### BY-LAW No. 883

#### **MAYOR'S SIGNATURE MECHANICALLY PRODUCED (K. Bell)**

Being a By-Law of the Municipal Corporation of the City of Iqaluit ("City") to authorize the Mayor ("Mayor") of the City to sign cheques, in accordance with the Mayor's signing authority, in engraved, lithographed, printed or otherwise mechanically reproduced format bearing the signature likeness of the City Mayor;

WHEREAS section 141(2) of the *Cities, Towns and Villages Act*, R.S.N.W.T., 1988 c.C-8, authorizes, by by-law, the use of the Mayor's electronic signature for the purpose of issuing cheques, in accordance with the Mayor's signing authority, which may be engraved, lithographed, printed or mechanically reproduced;

WHEREAS proper security measures will be initiated pursuant to this By-law to protect the integrity of the signature process;

**NOW THEREFORE, THE COUNCIL OF THE CITY OF IQALUIT, NUNAVUT** duly assembled, hereby enacts as follows:

1. That the signature of the Mayor may be written, engraved, lithographed, printed or otherwise mechanically reproduced on cheques on the City's bank accounts under five thousand dollars (\$5,000).
2. That all cheques in excess of five thousand (\$5000) must be signed manually by two signing officers.
3. That a cheque in which the signature of the Mayor has been mechanically reproduced must be countersigned by an authorized signing authority of the City different from the individual who mechanically affixed the Mayor's signature or acting as the signing authority for the authorization of payment.
4. That the signature of Iqaluit Mayor be mechanically reproduced for the purpose of this By-law and to this end that:
  - (a) two (2) plates ("Plates") be made available for the mechanical reproduction of the Mayor's signature pursuant to this By-law; and
  - (b) the Plates be secured in the City Clerk's safe (unless the same are being used);
  - (c) a record be kept in the office of the City Clerk, and provided to the Mayor, of all cheques signed by mechanical reproduction. The record shall include the individual who mechanically reproduced the Mayor's signature pursuant to this By-law.
5. Mayor's Signature Mechanically Reproduced (M. Redfern) By-Law No. 800 is hereby repealed.

Dear Mayor Bell, *Kenny,*

Thank you for the letter on behalf of the Iqaluit City Council regarding your support for retail Cannabis stores in Iqaluit.

Cannabis distribution has seen many different models across the country and there are more complicating factors that we face here in Nunavut. As federal legislation changes to include the regulation of more products, it is in our interest to learn from these models before implementing our own regulations specific to our unique territory.

Currently the Department of Finance has a working group advancing regulations for retail licences across Nunavut. It is imperative that our regulations consider all health, safety and economic concerns before they are implemented. As these regulations will affect all 25 communities it is important that we develop them in a manner that supports potential local business opportunities and avoid unnecessary barriers of entry.

The advantages of retail stores, as you have mentioned, can only be realised with careful consideration and tailoring of regulations that allow them to combat the illegal market profitably. I am pleased with the city's interest on the matter and welcome any input you would like to share.

Sincerely,

Hon. George Hickes, MLA  
Minister of Health  
Minister Responsible for the Nunavut Liquor and Cannabis Commission
