## Water Shut Down and Boil Water Advisory in Core Area

December 8, 2020 – Iqaluit, Nunavut

---

Please be advised of a water shut down in the Core Area on **Tuesday, December 8, 2020 from approximately 1 p.m. to 5 p.m.** to allow for a repair to the water infrastructure.

Location of water interruption: 782,784,786,788,790,792,806,808,810.

The City of Iqaluit is issuing a boil water advisory for these residents.

This is a precautionary measure due to a break in the water line during a repair to our water infrastructure.

The City recommends that all water used for consumption and dental hygiene is brought to a rolling boil for a minimum of one full minute. Water can be boiled in a pot over the stove, allowed to cool and stored in a covered container or refrigerated for later use.

**The City of Iqaluit will release a Public Service Announcement when the boil water advisory is lifted.**

For more information during business hours contact:

Sue Avery  
City of Iqaluit
