## Water Shut Down and Precautionary Boil Water Advisory

**1087, 1088, 1091, 1120, 1121, 1123, 1124, 1125, 1126, 1127, 1133 + 1135**

**October 3, 2023 – Iqaluit, Nunavut**

---

Please be advised of a localized water shut down **Thursday, October 5th**, from 9 am to 12 noon, to allow for necessary water infrastructure work.

Location of water interruption: **1087, 1088, 1091, 1120, 1121, 1123, 1124, 1125, 1126, 1127, 1133 + 1135**

During the disruption, those locations will see a drop in water pressure. When water pressure drops, the Chief Public Health Officer of Nunavut automatically issues a precautionary boil water advisory. If this water interruption affects your residence, you are under a precautionary boil water advisory.

When the Office of the Chief Public Health Officer informs the City of Iqaluit that the advisory is lifted, we will inform residents.

During a precautionary boil water advisory, the City recommends that all water for consumption is brought to a rolling boil for a **minimum** of one full minute.

It is recommended that all water be boiled for the following uses:

- drinking;
- preparing infant formulas;
- preparing juices and ice cubes;
- washing fruits and vegetables;
- cooking; or
- brushing of teeth.

City of Iqaluit  
1085 Mivvik Street  
P.O. Box 460  
Iqaluit, Nunavut  
X0A 0H0

Water can be boiled either in a pot or kettle on a stove or an electric kettle without an automatic shut-off.
