(Iqaluit, Nunavut) The City of Iqaluit utilidor department would like to advise residents that the scheduled maintenance to replace a service saddle located in a manhole required for the utility water main system at the corner near unit 581 is now complete. Residents in housing units on Amaaq and Suputi Streets should have their water up and running again.

We apologize for any inconvenience this caused to the affected areas.

We thank you in advance for your patience during the scheduled maintenance.
